

SKETCHBOOK

Program runs from June 1 to August 10

We are so glad that you joined us for the 9th year of **Get Outdoors (GO) Adams!**, an exciting program of activities that encourages children and their families to get outdoors and get moving this summer. You'll search for fifteen "markers" – wooden posts, each with an etching plate – that are

hidden in local and state parks around Adams County. This year, you can **GO and Color Our World!** as you follow clues to find

markers featuring different colors, places to see color, and things that use color! See the next page to find out how to get started on your journey!

In addition to finding markers outdoors this summer, you'll discover many other ways you can **Color Our World!** Visit any

Adams County Library to check out and read books about any of the markers. You'll improve your reading and learning

skills, and you can earn rewards from the library for recording your reading minutes in the Beanstack app! (See pages 20-22 for more information.) **GO Adams!** and **Adams County Libraries** events count as 20 minutes each, so be sure to log them to earn amazing prizes. Learn more about

the many free library programs planned just for you at www. adamslibrary.org.

Most of all, we want you to **Get Outdoors**, have fun, and **Color Our World!**

WellSpan Health and Adams County Library System are the proud sponsors of this program. FIND US ON

HOW TO GET STARTED

- 1. Choose Your Marker! Look through the Sketchbook (program quide) and choose one of the markers you want to find (starting on page 3). All the information uou need to know about each marker hike can be found on the outside column of each page.
- **2. Find Your Route!** Go to page 18 and find the park location for your marker hike. The driving directions will take you right to the parking area for your hike. (**Please note:** not all parks have a specific street address to enter into a map or GPS app, so it is important to follow the directions carefully.)
- 3. Ready, Set, Hike! The "thumbnails" in the Sketchbook will tell you where to start the hike and give you step-bystep directions to find the hidden marker. Take the **Sketchbook** and rubbing sheet with you on your hike.
- **4. Know the Code!** If you want to use your rubbing sheet to capture the image on the marker (post), place it on top of the embossed plate and rub over it with a colored pencil or crayon to make the image appear. If the 4-digit code isn't clear on your rubbing, make sure to write it down – you'll need it later.
- **5. Callina All Cars!** Each hike includes directions to return to your vehicle to complete the hike. Before you leave the area of your hike, make sure to take any trash along with you to keep things neat and tidy. There might be a playground or other fun places nearby, too!
- **6. Go Online!** Since the program is digital, you can use a computer (or a phone) to access the **Beanstack** app (see page 20) and follow the directions to enter the 4-diait codes from your marker hikes. Don't forget to log your reading minutes there as well.
- 7. Repeat as Needed! Keep finding those markers and their codes to enter into **Beanstack**. You'll be registered for participation prizes and receive entries into the drawing for one of five prizes. See how many hikes you can complete before the program ends on August 10. Have fun on uour hikes!

GO Adams! Hikes -**Difficulty Ratings**

A short distance hike on fairly level ground.

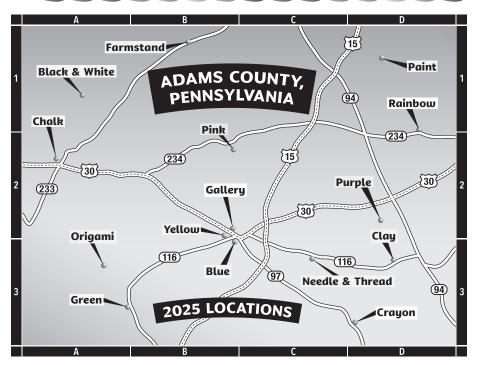

A longer distance walk on fairlu level around. or a short distance with some hills.

A lona distance walk with hills and obstacles.

Distances to all markers were measured using a standard smart phone app. All distances are roundtrip, unless specified, based on following the clues as written from the starting point to the post and backtracking to the starting point.

BLACK & WHITE

THUMBNAILS TO SHOW YOU THE WAY!

- From the parking area, cross the road and enter the trail. Go around the rocks and head uphill.
- 2. At the first intersection, turn right. This is the Appalachian Trail.
- **3.** Continue walking, looking for the white blazes. You will be following the white blazes the entire time on the trail.
- **4.** The trail has lots of roots, so watch your footing. One section may get wet and muddy, but there is a higher portion of the trail built to keep your feet dry.
- Keep walking, keep walking, keep walking. You will come to a spot where a tree has fallen over the trail. Carefully step over it (unless it was removed).
- **6.** Continue on the path until you reach the end of the path at Ridge Road. The post will be found on a tree with a white blaze to the left of the path (close to 0.75 mile/20 minutes into the walk).
- **7.** To return, turn around and go back the way you came to the parking area.

USING BEANSTACK

Log Your Colorful Fun with Beanstack!

beanstack

What is Beanstack?

Beanstack is the website and mobile application that is used for logging your reading and outdoor activities during **SummerQuest**. From this site, you can track your books and time spent reading, activities you've accomplished, and the **GO Adams!** hidden posts you've found.

Why should I use Beanstack?

GO Adams! is fully digital! While you still have your physical rubbing sheets and booklets, **GO Adams!** staff track everyone's progress digitally through **Beanstack**. This includes all drawing entries for the five prizes.

What if I don't have a phone or computer to log my hikes?

That's okay! Call or visit any **Adams County Library**, and a staff member can log the marker for you. Just have your rubbing sheet nearby (including the code) so that staff can verify the markers you found.

Learn More

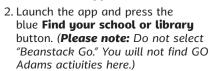

For detailed instructions and video tutorials of using and accessing **Beanstack**, scan this QR code, or visit www.adamslibrary.org/summerquest.

Getting Started on the Beanstack Tracker App

Store or the Apple Store.

3. Select **Find a Site** to search for **Adams County Libraries**' **Beanstack** site.

 A search bar will appear. Search for Adams County Libraries and tap on our name.

USING BEANSTACK

- 5. Log into **Beanstack** with an existing username and password, or press **Sign Up!** to create an account. We recommend using your full library card number as your username and the last six digits as your password.
 - a. Tip: If you are logging parks for multiple kids, we recommend creating one account under an adult's name and library card and adding multiple "readers" to the adult's account.
 - b. **Tip:** Add an email to your account to be notified of earned rewards.

Having trouble logging in? Contact Robyn Woods at *beanstack@ adamslibrary.org* for help!

Once you are logged in, you can access all the functions of the app, including:

- Registering for summer programs
- Tracking GO Adams! park posts
- Viewing statistics of your reading
- Loaaina new books

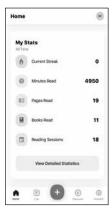

How to log your Markers (park posts) in Beanstack

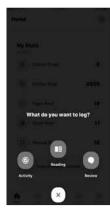

Congratulations! You've found one of the 15 markers! Now you can digitally track your progress (and unlock virtual badges!) on **Beanstack**. You'll need your rubbing sheet to complete logging. Follow these steps to track your progress:

- 1. Open your **Beanstack Tracker App** and log in.
- Register for the SummerQuest program for your age group (if you have not yet done so).
 - a. Tap the **Discover** icon at the bottom of the screen.

- b. Locate the SummerQuest program for your current age and tap the Register button.
- 3. Tap the blue + (plus) button at the bottom of the screen to add to your log. Next, tap the **Activity** icon

- 4. If you have multiple readers on one account, all readers' names will appear. Select the name of the person you would like to log the activity for, and press Choose Reader.
- A list of available activities will appear based on the SummerQuest program your child is enrolled in. Tap the activity named GO and Color Our World!

USING BEANSTACK

6. Scroll to find the name of the marker (park post) you just found. Using your rubbing sheet, find the secret code for this post below the rubbing. Enter the secret code and save your answer.

7. Points and badges will be awarded to you as you identify more markers!

Remember, the more park posts you identify, the more chances you'll receive to win one of the five prizes! For more instructions on these steps, scan this QR code for a tutorial.

Bonus!

Every **GO Adams!** hike you complete counts as 20 minutes of reading time! Don't forget to log those extra minutes to earn additional reading badges and library prizes.

GO REWARDS & PRIZES

GO Adams! is digital — while everyone can still use the rubbing sheets and booklets, we will be tracking your progress digitally through **Beanstack** (see pages 20-22), including the drawings for one of five prizes! All **GO Adams!** children who find a minimum of three different markers between June 1 and August 10 will receive a reward for participating in the program.

One Park = One Point

For every marker you identify and log into **Beanstack**, you earn one point. As you earn more points, you can unlock virtual "badges" through **Beanstack**! Each badge you earn increases your chances of winning one of five prizes, as follows:

4-9 different markers identified = 1 chance to win a prize 10-14 different markers identified = 2 chances to win a prize All 15 markers identified = 3 chances to win a prize

Even though five prizes will be awarded, remember that all **GO Adams!** children who find and submit at least three different markers will receive a reward!

The last day to locate "markers" and log them into your **Beanstack** account is **Sunday, August 10**. All hikes must be logged no later than **Sunday, August 17** to receive the participation reward and earn entries into the prize drawing. If you need help logging hikes, please call or visit your local library and ask staff for assistance. The **Sketchbook** (program guide) and rubbing sheet you used to find each marker are yours to keep and do not need to be returned.

The drawing prizes – to be determined – will be awarded near the beginning of October 2025. Winners will be contacted by phone to obtain their prize.

If you have any questions about **GO Adams!** rewards and prizes, please e-mail us at feedback@goyork.org or call **WellSpan Health** at (717) 851-3222.

Please note that all marker posts will be removed after the program ends on Sunday, August 10.

GO Adams! program planners and their immediate families may receive the participation reward for finding three portals. However, they are ineligible for the prize drawing.

STAY SAFE OUTDOORS

When you're outdoors, you could run into bugs, wild animals, poisonous plants, and other risks and dangers. Here are some **safety tips** to keep in mind on your adventures:

- Know the parks and places you're going to visit before you get there.
- Follow any park rules and respect the environment. Take trash home.
- Never hike alone, and let others know where you're going.
- Keep your valuables safe lock them in your vehicle or take them with you.
- Protect yourself from the sun wear a hat and use sunscreen.
- Stay hydrated bring water along and drink even if you aren't thirsty.

- Stay alert for the weather and seek safe shelter if it gets dangerous.
- Watch your step logs, branches, roots, and rocks can trip you up!
- Poison ivy, oak, or sumac might be near a trail or post — be careful!
- Look out for wild things spiders, snakes, bugs, and other critters.
- Keep annoying bugs away use bug repellent spray or other products.
- Use caution around all bodies of water — ponds, rivers, and streams.

TOP TIPS FOR BIKE SAFETY

There are so many great reasons to ride your bike. It offers fun, freedom and exercise, and it's good for the environment. Here are a few tips from **Safe Kids Worldwide** to help you stay as safe as possible while you're doing it.

Use Your Head, Wear a
Helmet – Adults and kids
should always protect their
brain by wearing a properly
fitted helmet every time when
biking, skating or scooting.

Be Bright, Be Seen – Add reflectors or lights to your bike, wear light colored clothing and accessories that have retroreflective materials to help motorists see you.

Ride Right - Ride on the right side of the road, with traffic, not against it. Stay as far to the right as possible.

Cross Carefully – Look left, right, and left again before entering a street or crossing an intersection. Bikers should make eye contact with drivers to be sure they are paying attention and are going to stop before they cross the street.
